Acceptable Use Computer Policy

The Dodge County Schools Computer Network is established for the educational and professional use of Dodge County Schools' students, faculty, and staff ("Users"). This Technology and Acceptable Use Policy (the "Policy") is intended to govern Users with respect to Dodge County Schools Network and the Internet. Users are expected to conduct themselves on the Dodge County Schools Network in the same fashion as they do elsewhere in the community. Users who violate this Policy will have their Dodge County Schools Network privileges revoked and may be subject to further disciplinary action, including suspension or dismissal. Dodge County Schools may also report offenders to applicable law enforcement agencies.

The Dodge County Schools Network provides access to the global Internet. Dodge County Schools have taken available precautions to restrict access to controversial materials on the Internet. However, on a global network, it is impossible to control all materials. Dodge County Schools believe that the valuable information and interaction available on the Internet far outweighs the possibility that Users may find material that is not consistent with our educational goals.

The smooth operation of the Dodge County Schools Network relies upon the proper conduct of all Users. The signature on the Handbook Acknowledgement form is legally binding and indicates the parties who have signed have read the terms and conditions of this Policy carefully and understand their significance.

Dodge County Schools Network - Terms and Conditions (Acceptable Use and Illegal Actions)

Scope and Authority – The Dodge County Schools Network includes all hardware, software, and network services used by the Dodge community. Parents give the school permission to use applications that are educationally beneficial to our students.

Privileges

The use of the Dodge County Schools Network is a privilege, not a right. The use of an account must be consistent with the educational objectives of Dodge County Schools. The Technology Office and/or School Administration will deem what is inappropriate use and will refer any such conduct to Dodge County Schools Administration. Dodge County Schools, in its sole discretion, reserves the right to determine what conduct constitutes a violation of this Policy, and the discipline for any such violation.

Transmission of any material in violation of any U.S. or state regulation is prohibited. This includes, but is not limited to, material protected by copyright, threatening or obscene material, or material protected by trade practice. Use of the Dodge County Schools Network for commercial activities, product advertisement, or political lobbying is prohibited. Use of the Dodge County Schools Network and the Internet must be consistent with this Policy and all policies and practices of Dodge County Schools, and violations of this Policy and such other policies and practices may result in the suspension or loss of an account, loss of Internet access, or in other forms of disciplinary action.

No Expectation of Privacy

Dodge County Schools routinely monitor usage of the Dodge County Schools Network and may review any communications on its systems. Dodge County Schools is able to override all passwords. Users do not have a privacy right in the contents of their computer system, including messages sent, received, or stored on the email systems or in their use of the Internet. Passwords to these systems exist for the benefit of Dodge County Schools. Users should have no expectation that the ability to choose a password for a system in any way limits the ability or right of Dodge County Schools to monitor all activity.

Security

Security on any computer system is a high priority, especially when the system involves many Users. No User may have access to another's files on the Dodge County Schools Network. The following guidelines will help maintain Dodge County Schools Network security:

- If you feel you have identified a security problem on the Internet, you must notify the Director of Technology.
- Do not allow anyone else to use your account and do not use another individual's account.
- Inappropriate attempts to access a server as an administrator will result in immediate cancellation of User privileges and/ or discipline.
- Any User identified as a security risk or having a history of problems with other computer systems may be denied access to the Dodge County Schools Network.

Inappropriate Access

Not all of the information freely available on the Internet is reliable or helpful. Students and employees must evaluate the source of the information, as well as the information itself, to determine its appropriateness and usefulness.

In addition to providing information, the Internet is capable of providing the means to communicate directly with others via “instant or private messaging” programs, video conferencing programs, and other means. Also, there are many places and software technologies that will allow for the free exchange of files between computers over the Internet, such as email. Not all of these methodologies are appropriate for an educational environment as outlined in this document.

Downloading or loading of software on Dodge County Schools’ computers is prohibited. There is an enormous quantity and variety of free software available on the Internet. However, widespread downloading of such software on the School’s computers has a cumulative negative effect, and can result in the substantial degradation of performance, additional maintenance time, and increased threat of virus infestation. All software purchases must be approved by the technology staff.

Students may not use school computers to access any Internet site or sites that contain information that is inappropriate for educational purposes or sites that teachers, staff or administration deem inappropriate for the instructional program. Examples of inappropriate information and/or content include, but is not limited to, the following:

Students may not access, upload, download, transmit, display or distribute:

- a.) offensive material – content that is in poor taste or could be considered obscene; abusive or sexually explicit language, racist, illegal, harassing or inflammatory.
- b.) distribute dangerous material – content that provides direction in the construction of explosives or similar devices or instruction or practices that could injure the students themselves or others.
- c.) inappropriate contacts – materials that can lead to contact with strangers who could potentially threaten the student’s health or safety.

If a student is uncertain as to whether or not a site’s material might be considered inappropriate, the student should consult his or her teacher or a member of the administrative staff for clarification.

Privacy

School staff and administrators have access to student email for monitoring purposes. Students should have no expectation of privacy on the Google Apps for Education system.

Limited personal use - Students may use Google Apps for Education tools for personal projects but may not use them for:

1. Unlawful activities.

2. Inappropriate sexual or other offensive content.
3. Threatening another person.
4. Misrepresentation of Dodge County Schools, staff or students.

Safety

- Students will tell their teacher or other school employee about any message they receive that is inappropriate or makes them feel uncomfortable.
- Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their accounts.
- Under no conditions should a user provide his or her password to another person.

Access Restriction - Due Process

Due to the rapidly changing technology environment, Dodge County Schools reserve the right to determine if an action not listed in this document is inappropriate, and the student may be subject to discipline.

Hardware

Student Chromebooks/Devices are managed in order to allow for student use of systems only for educational purposes. Under no circumstances is a student to attempt to modify the existing hardware configuration. Modification can be considered either opening the case or changing hardware or software settings. Students are responsible for any damage on their computers.

Dodge County Schools Information Technology offers a Guest Network for connection purposes.

Contact

Each student and employee is responsible for all activity that occurs under his/her user account. Students and employees may not place information on the Internet that is inappropriate or unacceptable.

Students may not give out any personal information (e.g., address, phone number, user name, passwords, etc.) about themselves or about other people. Students may not use school computers for commercial purposes or political lobbying.

Willful damage of computer hardware, computer software (including the deletion of programs and/or files) and computer networks will result in the student being responsible for the current repair and replacement cost of the damaged software and/or equipment. Any student violating the terms of this document will receive appropriate disciplinary action as defined by the school administrations.

The Director of Technology or his/her designee may close an account at any time as required. The administration, faculty and staff of Dodge County Schools may make a request to the Director of Technology or his/her designee to deny, revoke or suspend specific user accounts based upon violations of this policy.

Improper Use and Content

Users may not use the Dodge County Schools Network for purposes of harassment, intimidation or bullying of others.

Bullying is the repeated use of a written, verbal or electronic expression, physical act or gesture, or any combination thereof, directed at another student that:

1. causes physical or emotional harm to the student or damage to the student's property;
2. places the student in reasonable fear of physical injury or of damage to property;
3. creates a hostile environment at school for the student;
4. infringes on the rights of the student at school; or,
5. materially and substantially disrupts the education process or the orderly operation of a school.
6. A hostile environment is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule or insult that is sufficiently severe or pervasive to alter the conditions of the student's education.

Cyber-bullying involves an act of bullying through the use of technology or any electronic communication, including but not limited to electronic mail, internet communications, or instant messages. Cyber-bullying also includes the creation of a web page or blog in which the creator assumes the identity of another person; or, the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions described in the definition of bullying. Cyber-bullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic

medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions described in the definition of bullying.

Dodge County Schools shall, in its sole discretion, determine whether such conduct violates this policy and any other policies of Dodge County Schools. Users must remember that material distributed through the Internet is public. On the Internet, there is no central authority, so each site is responsible for its own Users. Complaints received from other sites regarding any of our Users will be fully investigated, and disciplinary action may be taken as a result.

Social Networking Sites

While Dodge County Schools respects the right of employees, students and families to use social media and networking sites, as well as personal websites and blogs, it is important that any such personal use of these sites does not damage Dodge County Schools' reputation, its employees, or its students or their families. Student use of social networking sites is prohibited on Dodge distributed technology devices. All users should exercise care in setting appropriate boundaries between their personal and public online behavior, understanding that what is private in the digital world often has the possibility of becoming public, even without their knowledge or consent.

Dodge County Schools strongly encourages all employees, students and families to carefully review the privacy settings on any social media and networking sites they use (such as Facebook, Instagram, Twitter, Flickr, LinkedIn, etc.), and exercise care and good judgment when posting content and information on such sites. If an employee has a community that extends to persons who are parents, alums, or other members of the Dodge County Schools community, she/he must exercise good judgment about any content that is shared on the site.

Additionally, employees, students and families should adhere to the following guidelines, which are consistent with Dodge County Schools' community standards on harassment, student relationships, conduct, professional communication, and confidentiality:

- Users should not make statements that would violate any of Dodge County Schools' policies, including its policies concerning discrimination or harassment;
- Users must uphold Dodge County Schools' value of respect for the individual and avoid making defamatory or disparaging statements about the school, its employees, its students, or their families;
- Users may not disclose any confidential information of Dodge County Schools or confidential information obtained during the course of his/her employment, about any individuals or organizations, including students and/or their families.

Dodge County Schools has a strong interest in promoting a safe and supportive learning environment, as well as maintaining a positive reputation in the community. If the school believes that an employee's activity on a social networking site, blog, or personal website may violate the school's policies or otherwise may have a detrimental impact on the learning environment, the school may request that the employee or student cease such activity. Depending on the severity of the incident, the employee or student may be subject to disciplinary action. Dodge County Schools reserves the right to impose discipline, up to dismissal or termination, for any behavior on or off campus that Dodge determines may impair or negatively impact the reputation of the school.

Theft and Vandalism

Users must acknowledge the use of the intellectual property of others. Users must treat information found electronically in the same way as information found in printed sources. Rules against plagiarism will be enforced. It is the responsibility of each User to comply with the terms and condition for the acquisition and use of software found on the Internet. Dodge County Schools will not allow the copying or storing of illegally acquired software. In this case, vandalism refers to deliberate attempts to damage the hardware, software, or information residing on Dodge County Schools Network or any other computer system attached through the Internet. Attempts to violate the integrity of private accounts, files or programs; the deliberate infecting of a computer with a "virus," attempts at "hacking" computers using any method, or other such actions shall be a violation of this Policy.

"Netiquette"

Users must abide by accepted rules of network etiquette, including, but not limited to, the following:

- Do not reveal personal information – your address or telephone number, or those of students or colleagues.
- Be polite. Do not be abusive in your messages to others. Use appropriate language and do not use vulgarities, or any other inappropriate language.

Waiver of Warranties; Limitation of Liability

Dodge County Schools makes no warranties of any kind, whether express or implied, concerning this service. Dodge County Schools shall not be held responsible for any damages suffered, including the loss of data resulting from delays, non-deliveries, missed deliveries, service interruptions, or errors and omissions. Dodge County Schools denies any responsibility for the accuracy or quality of information obtained through

this service. All terms and conditions as stated in this Policy are applicable to the use of computer resources at Dodge County Schools, in addition to internet use.

Preservation of Resources

All resources are limited; computer resources are not an exception. Because space on disk drives and bandwidth across the lines, which connect Dodge County Schools Network both internally and externally, are limited, neither programs nor information may be stored on the system without the permission of the system administrator. Users are not to load software on any school computer. Each User is permitted reasonable space to store e-mail, Web, and personal files, as mandated by system file quotas. Dodge County Schools reserves the right to require the purging of files in order to regain disk space without warning. Users whose need for the resource is more pressing will have priority of space.

By signing this electronic technology and Internet contract, both student, parent/guardian and staff are stating that have read the rules for acceptable uses of electronic technology, acceptable on-line behavior, understand the rules, and agree to comply with all of the above stated rules at Dodge County Schools. Appropriate Use of Social Media

Approved July 9, 2015

Descriptor Code: IFBGC

The Dodge County Board of Education recognizes that today's students and parents engage in electronic forms of communication for their daily interactions with friends, family, and their larger social networks. The Dodge County Schools will utilize telephones, emails, websites, text messaging, and social media to communicate with similar groups. Whereas these forms of communications are dynamic, mobile, and quickly reach their audience through technologies that have become an integral part of our online lives, they may, in some circumstances, not meet the public and professional standards for communicating with parents and students.

The Dodge County School System realizes that part of the 21st century learning is adapting to the changing methods of communication. The importance of staff, students, and parent engaging, collaborating, learning, and sharing in these digital environments is a part of 21st century learning. These expectations for communicating electronically are to provide direction for employees when participating in online social media activities. It is important to create an atmosphere of trust and individual accountability, keeping in mind that information produced by Dodge County School System employees is a reflection on the entire district. By assessing, creating, or contributing to blogs, wikis, or other social media, both personal and school related, you agree to abide by these expectations. Please read them carefully before posting or commenting, or utilizing any form of social media, including, but not limited to, blogs, wikis, Remind 101, Twitter, Facebook, Instagram, or podcasts.

Schools may maintain an official social media presence. These official pages will be designed with logos and language to maintain the branding of the schools and system. All employees must adhere to the Georgia Code of Ethics for Educators. All electronic communication between staff, students, and parents should be transparent. As a public school district, we are expected to maintain openness, visibility, and accountability in regards to communications. All electronic communications between staff, students, and parents are a matter of public record and/or may be accessible by others. All electronic communication from staff to student or parent should be written as a professional representing your school and system. This includes word choices, tone, grammar and subject matter that model the standards and integrity of a professional employed by the Dodge County Schools. Always choose words that are courteous, conscientious, and generally businesslike in manner. Ensure that electronic communications are made during reasonable hours and with reasonable frequency.

As role models for Dodge County's students, employees are responsible for their public conduct even when they are not acting within the course and scope of district employment and whether even when they are on or off school property and whether or not the use takes place within the workday. Employees will be held to the same professional standards in the public use of electronic media as for any other public conduct in accordance with District policies, state and federal laws, and professional ethics. An employee's use of electronic media should never interfere with his or her ability to effectively perform his or her job duties. Employees of the school system should not use personal email accounts or social media to communicate with students or parents regarding school matters.

Employees are subject to applicable state and federal laws, local policies, administrative regulations, and the Code of Ethics and Standard Practices of Georgia Educators, even when communicating regarding personal and private matters, regardless of whether the employee is using private or public equipment, on or off campus. The wall between the role of a public educator and personal friendships should always be visible and strongly communicated. Employees are responsible for maintaining privacy settings appropriate to the content of social media and are responsible for monitoring the social media source for appropriate content on a continuous basis.

Restrictions include:

- a) Confidentiality of student records. This includes discussing any information online or otherwise that could lead to the identification of a particular student or in any manner violate the Family Education Right and Privacy Act (FERPA).
- b) Confidentiality of health or personnel information regarding colleagues, unless disclosure serves lawful professional purposes or is required by law.
- c) Confidentiality of district records, including education evaluations, private emails, and residential addresses.
- d) Copyright law.
- e) Prohibition against harming others by making false statements about a colleague, students, or the school system.
- f) Upon request from a parent, the employee shall discontinue communicating with the student through email, text messaging, instant messaging, social media, or any other form of one-to-one communication.

Housekeeping

We cannot emphasize too much the value derived from a clean, attractive, neat classroom. Please strive daily to keep your room attractive as well as to create and maintain the right classroom atmosphere. Students' desks should be left in order, floors free from trash and paper, and all equipment and instructional material in proper order at the close of each day. Please encourage cleanliness in classrooms and halls. During your last class period, have your students clean their desks of trash.

The following policies should be observed by all teachers and all other staff members:

Teachers/Staff should remain on campus during the entire school day unless permission to leave is granted by the principal or her designee. Teachers are required to sign out in Ms. Johnson's office when they leave campus and sign back in there when they return.
